## Sharps and flats

A list with names of notes that may confuse you and what they stand for:

- C#: the same as Db
- D#: the same as Eb
- F#: the same as Gb
- G#: the same as Ab
- A#: the same as Bb

For simplifying matters, Cb, Fb, E#, B# and double accidentals are not used.

## Intervals

Intervals in music describe the distance between two notes. Some of the intervals you will hear about in the presentations of the chords are: second, third, fourth, fifth, sixth, seventh, ninth, eleventh and thirteenth.

Intervals are used to describe the structure of a scale, not a chord. So, for example, when “the third” is mentioned it is referring to the third degree in the scale, not the third note in the chord. To avoid misunderstanding, this is often mentioned in parentheses. In the section “Chords and scales comparison tables”, the correspondence between scales and chords are illustrated in overviews.

## Fingerings

What the best fingerings are can depend on the size of the hand and also the situation sometimes.

However, you should accept the main rules such as to include the thumb for white keys and avoid playing with the thumbs on black keys if not forced.

## Notes

A full-scale piano includes a total of 88 keys, but there are only twelve different notes which are repeated from low to high tones. In some cases, two note names are used. These are called enharmonic notes and how they are written depends on the key they belong to. The symbols (accidentals) are known as sharps (#) and flats (b).

## Major triads

Major triads include three notes and these can be referred to as the root, the major third and the perfect fifth. This means that the notes in the chord are the first, the third and the fifth notes in the related scale. "Maj" is short for major, but in major triads the letter stands usually alone.

# Diminished & Augmented chords

The Piano Chord Collection

## Diminished triads

"Dim" stands for diminished and what happens in these chords is that both tones besides the root are flattened one semi-step. You may find the alternative degree symbol, as in C°. Dim chords are quite unusual and are mainly used for transitions between two chords.

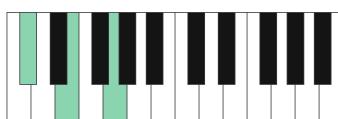

Interval pattern: 1 - 3 - 3.

### Cdim

Notes: C - Eb - Gb

### C#dim/D♭dim

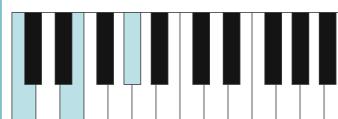

Notes: C# - E - G / Db - E - G

## Augmented triads

"Aug" stands for augmented. In a triad augmented chord there is the root and two major thirds. You may find the alternative plus symbol, as in C+. These chords are quite uncommon and their function is mostly to be placed between two chords that lack distinct relationship.

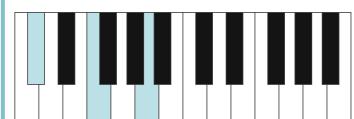

Interval pattern: 1 - 4 - 4.

# Suspended 2nd & 4th chords

## The Piano Chord Collection

### Suspended 2nd

"Sus" stands for suspension and what happens in suspended 2nd chords is that the third (second note in the chord) is replaced with a major second. The abbreviation used for the chords is sus2, but sus2 chords are occasionally written with only a number, as in C2.

Interval pattern: 1 - 2 - 5.

### Suspended 4th

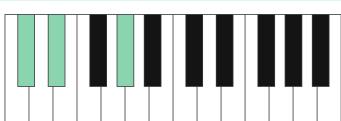

"Sus" stands for suspension and what happens in suspended 4th chords is that the third (second note in the chord) is replaced with a perfect fourth. The abbreviation used for the chords is sus4, but sus4 chords are sometimes referred to only as sus, as in Csus. Interval pattern: 1 - 5 - 2.

## Added 2nd

Added 2nd tone chords are major triads with an extra note. They are abbreviated “add” and add2 is one of the two main types. In add2 chords, the second tone in the related scale is added. As you may notice it is actually the same tone that is added for add2 and add9 chords, but on different octaves. Interval pattern: 1 - 2 - 2 - 3.

## Added 9th

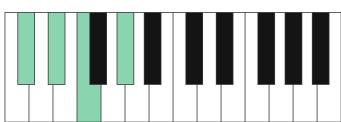

Added 9th tone chords are major triads with an extra note. They are abbreviated “add” and add9 is one of the two main types. In add9 chords, the ninth tone in the related scale is added. As you may notice it is actually the same tone that is added for add2 and add9 chords, but on different octaves. Interval pattern: 1 - 4 - 3 - 7.

# Major & Minor 6th chords

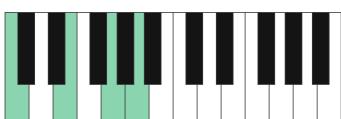

# The Piano Chord Collection

## Major 6th

The Major 6th chord is built by adding a sixth note to major triad, making it a four-note chord (also called a tetrachord). These are often referred to as Major 6th chords, but written without the abbreviation "maj" and are sometimes called Added 6th chords or just 6th chords.

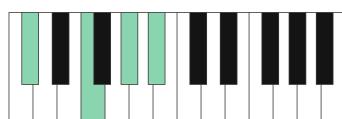

Interval pattern: 1 - 4 - 3 - 2.

# Dominant 7th & 9th chords

# The Piano Chord Collection

## Dominant 7th

The Dominant 7th chord is built by adding a minor seventh note to a major triad, making it a four-note chord. The name "dominant" refers to the fifth degree of the diatonic scale and it is called dominant because it is most weighty besides the tonic (the root of the scale) and its neither major nor minor.

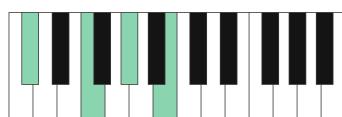

Interval pattern: 1 - 4 - 3 - 3.

### C7

Notes: C - E - G - Bb

### C#7/D♭7

Notes: C# - F - G# - B

## Dominant 9th

The Dominant 9th chord is built by adding a major third to a Dominant Seventh chord, making it a five-note chord. The Ninth chord is an extended chord, and is called so because it is extended with a third one octave higher, which also is nine scale steps above the root note.

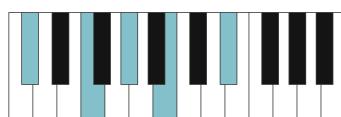

Interval pattern: 1 - 4 - 3 - 3 - 4.

# Major & Minor 11th chords

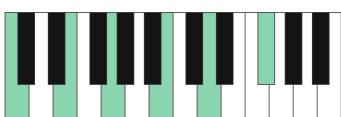

# The Piano Chord Collection

## Major 11th

The Major Eleventh (maj11) is rather unusual and is more correctly written maj9(#11) since the eleventh normally is raised a semi-step in comparison with the related scale. This is because of the dissonance that otherwise occur between the major third and the eleventh in the chord.

## Major 13th

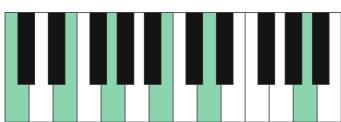

The Major Thirteenth (maj13) is built by adding a 13th. This chord includes seven notes, but the eleventh is normally left out making it either a six-note or seven-note chord. For practical reasons the chord is normally played with omitted notes and/or inverted. It must not be confused with the Dominant 13th chord. Interval pattern: 1 - 4 - 3 - 4 - 3 - (3) - 7.

## Minor 13th

The Minor Thirteenth (m13) is built by adding a third to a Minor Eleventh chord. All notes in the related minor scale are included, with the last note in the chord as an exception. For practical reasons the chord is normally played with omitted notes and/or inverted.

# Dominant 11th & 13th chords

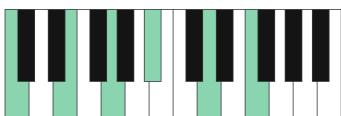

## The Piano Chord Collection

### Dominant 11th

The Dominant 11th chord is built by adding a major third to a dominant ninth chord, making it a six-note chord. However, the third (the second note in the chord) is normally excluded and this version of the chord is identical with the C9sus4.

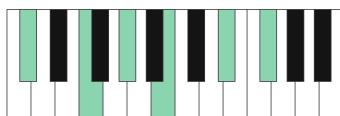

Interval pattern: 1 - (4) - 3 - 3 - 4 - 3.

#### C11

Notes: C - E - G - Bb - D - F

#### C#11/D♭11

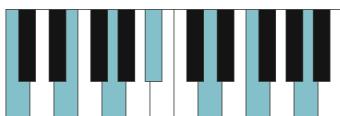

Notes: C# - F - G# - B - D# - F#

### Dominant 13th

The Dominant 13th chord is built by adding a major third to a dominant eleventh chord, making it a seven-note chord. However, one or more notes are normally omitted, usually the fifth (the third note in the chord), the ninth (the fifth note in the chord) and/or the eleventh (the sixth note in the chord).

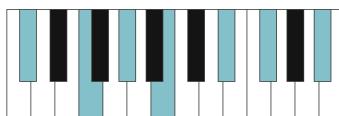

Interval pattern: 1 - 4 - 3 - 3 - 4 - 3 - 4.

# Number formulas

In each chord overview, “interval patterns” are included. These are intervals that all chords in a category share. The number formula 1 - 4 - 3, for example, means that you can begin with the root and when go four steps to the right to get the next note in the chord and when go three steps again to reach the last note in the chord. By learning the intervals, you have a “backup” if you forget a chord in a category.

Table 1. Number formulas for chords

Chord family	Intervals
Major triads	1 - 4 - 3
Minor triads	1 - 3 - 4
Diminished triads	1 - 3 - 3
Augmented triads	1 - 4 - 4
Suspended 2nd	1 - 2 - 5
Suspended 4th	1 - 5 - 2
Added 2nd	1 - 2 - 2 - 3
Added 9th	1 - 4 - 3 - 7
Major 6th	1 - 4 - 3 - 2
Minor 6th	1 - 3 - 4 - 2
Major 7th	1 - 4 - 3 - 4
Minor 7th	1 - 3 - 4 - 3
Dominant 7th	1 - 4 - 3 - 3
Dominant 9th	1 - 4 - 3 - 3 - 4
Major 9th	1 - 4 - 3 - 4 - 3
Minor 9th	1 - 3 - 4 - 3 - 4
Major 11th	1 - 4 - 3 - 4 - 3 - 4
Minor 11th	1 - 3 - 4 - 3 - 4 - 3
Major 13th	1 - 4 - 3 - 4 - 3 - (3) - 7
Minor 13th	1 - 3 - 4 - 3 - 4 - 3 - 4
Dominant 11th	1 - (4) - 3 - 3 - 4 - 3
Dominant 13th	1 - 4 - 3 - 3 - 4 - 3 - 4

Note: The parentheses for Major 13th and Dominant 11th indicates notes that are normally left out.

# Key and chord charts

The charts show the relationship of chords in all keys. The first column shows the keys and each row shows chords matching the key.

- Chords on the same rows will always sound great together.
- The roman numerals can be helpful to summarize progressions across keys. For example, the I – IV – V progressions can be A – D – E in the key of A and C – F – G in the key of C.
- The chords can be substituted. For example, C can be substituted with Cmaj7 and Am can be substituted with Am7.

Chart 1. Chords in Major keys

Note: The second degree has been excluded since it is represented by less applied dim chords.

Chart 3. Chords in Melodic Minor keys

Key	i	ii	IV	V
A# Melodic Minor	A#m	Cm	D#	F
D# Melodic Minor	D#m	Fm	G#	A#
G# Melodic Minor	G#m	A#m	C#	D#

F# Melodic Minor	F#m	G#m	B	C#
B Melodic Minor	Bm	C#m	E	F#
E Melodic Minor	Em	F#m	A	B
A Melodic Minor	Am	Bm	D	E
D Melodic Minor	Dm	Em	G	A
G Melodic Minor	Gm	Am	C	D
C Melodic Minor	Cm	Dm	F	G
F Melodic Minor	Fm	Gm	Bb	C
Bb Melodic Minor	Bbm	Cm	Eb	F
Eb Melodic Minor	Ebm	Fm	Ab	Bb

**Notes:**

1. Several degrees have been excluded since they are represented by less applied chords, including augmented and diminished chords.
2. Substituting chords are not always straightforward in these keys. Building four-note chords in the A Melodic Minor key, for example, would result in AminMaj7, Bm7, D7 and E7.

# Chords and scales comparison tables

The tables show the relationship of chords and scales. The first column shows the keys and each row shows chords matching the keys. The key of C and Am are used as examples for major and minor scales respectively. After the seventh degree, the notes are repeating on a higher octave.

Table 1. Major scales and chords

Degrees	1	2	3	4	5	6	7	8	9	10	11	12	13

Cmaj11 chord	C		E		G		B		D		F#		
Cmaj13 chord	C		E		G		B		D				A

Note: The 11th interval in the maj11 chord is raised and therefore outside the key. This degree can be written as #11.
